- > GNRC composition: 5 members, 80% independent
- > The adjustments to the 2022 remuneration policy result from a long analysis process based on shareholder feedback and review of the best market practices and benchmarks. They were **discussed extensively during several regular and ad-hoc GNRC meetings.**

Remuneration review timeline

Timeline of the URW remuneration policy review

- As announced pre-2020 AGM, URW started a **complete review of the MB remuneration policy**
- With the sudden changes in governance early 2021, in the Covid-19 crisis context, some **immediate decisions were made (moderation measures)** before the remuneration policy review was completed
- This review is now completed. It was conducted on the basis of the comments received from shareholders and proxy advisors, 'best practices', recommendations from Afep-Medef, shareholder voting policies and qualitative remuneration policy benchmarking in the real estate sector.

At the 2021 AGM, a number of remuneration policy adjustments were submitted and well received by shareholders...

Rationale	Key features / changes
Immediate moderation of the CEO and CFO package in the Covid context and to reflect updated remuneration benchmarking	New CEO Fixed Income reduced vs. predecessor (€1Mn vs. €1.25Mn previously) New CEO maximum Short-Term incentive opportunity reduced (150% of FI vs. 200% previously)
Avoid misalignment between STI payouts and financial performance	Significant weight of financial objectives (80%) in the CEO's Short-Term Incentive
Provide objectivity to LTI performance-vesting	Long-Term Incentive objectives well balanced between External and Internal
Include sustainable stakeholder value in the executive remuneration package	Presence of 10% CSR objectives in the LTI
Align with best practices and shareholders, proxy and Afep-Medef recommendations	Other elements (no reward for failure, clawback provision, share ownership requirements...)

Full details of the 2021 AGM-approved remuneration policy are in Appendix

...and based on shareholder feedbacks, further improvements will be presented at AGM 2022

Rationale	Key changes
<p>Better balance in the remuneration structure. Better shareholder alignment</p>	<ul style="list-style-type: none"> Restructuring of the variable component towards long-term, share based opportunity
<p>Clearer communication of the executive remuneration structure</p>	<ul style="list-style-type: none"> Introduction of a target STI opportunity to clarify the package structure
<p>More balance and stringency in rewarding pay for long-term shareholder value Alignment with market practices and shareholder requests Consistency between reward and performance</p>	<ul style="list-style-type: none"> Introduction of progressive vesting of relative TSR (no more cliff-vesting) No payout below peer group index Maximum vesting limited to significant outperformance only Introduction of absolute TSR to further align executives' incentive
<p>Increase in sustainable value part in respect of all stakeholders Clearer focus on URW internal achievements and Better Places 2030 strategy</p>	<ul style="list-style-type: none"> Total CSR weighting brought to 20% CSR target based on external rating removed Replaced with measurable and quantifiable, internal metrics, externally audited
<p>Clear set of pre-defined and approved rules to facilitate succession planning and protect the Company's interests</p>	<ul style="list-style-type: none"> Introduction of a termination package in the event of forced departure Stringent performance conditions, avoid rewarding for failure

MB remuneration restructuring, 2020-2022

The restructuring of MB remuneration took place in two steps:

November 2020-
January 2021:
Immediate
changes in
governance and
remuneration

Context

- **Changes in governance (new CEO, new MB members)**
- In the Covid-19 crisis context, with the urgency of the situation, **immediate remuneration changes were decided**, in a spirit of moderation vs. previous MB, before remuneration review policy completion

Further to shareholder engagement, a new MB remuneration package will be proposed at the 2022 AGM, providing:

- **better balance** between short- and long-term incentive opportunities
- **better alignment with market practices**
- **Total Remuneration at a lower level** than that of previous MB members

January 2021-
AGM 2022:
Full
remuneration
policy review
finalised

Remuneration changes (CEO)

- **Fixed income reduced:** from €1.25m to €1m, a **20% reduction**
- **STI maximum opportunity reduced:** from 200% of Fixed Income (€2.5m) to 150% of Fixed Income (€1.5m), a **40% reduction**

- **Clarification of Target STI opportunity:** 80% of Maximum STI
- **Reduction in the LTI maximum opportunity:** from 180% to 150%
- **LTI opportunity set at 100%-150%, target 125%:**

STI/LTI opportunities		Former CEO (2020)		New CEO	
		% of FI	€ Value	% of FI	€ Value
Max	STI	200%	2,500	150%	1,500
	LTI	180%	2,250	150%	1,500
	Total	380%	4,750	300%	3,000
Target	STI	n/a (c.150%)	c.2,000	120%	1,200
	LTI	70%-90%	875-1,125	125%	1,250
	Total	c.220%-240%	2,875-3,125	225%	2,250

- **LTI performance conditions more stringent (see next pages)**
- **Same STI/LTI opportunities for MB members**

Between 2020 and 2022, the CEO total remuneration significantly reduced from above to below CAC40 median

CEO Maximum remuneration

CEO Target remuneration

(1) Source: Boracay Consulting, based on 2020 URDs

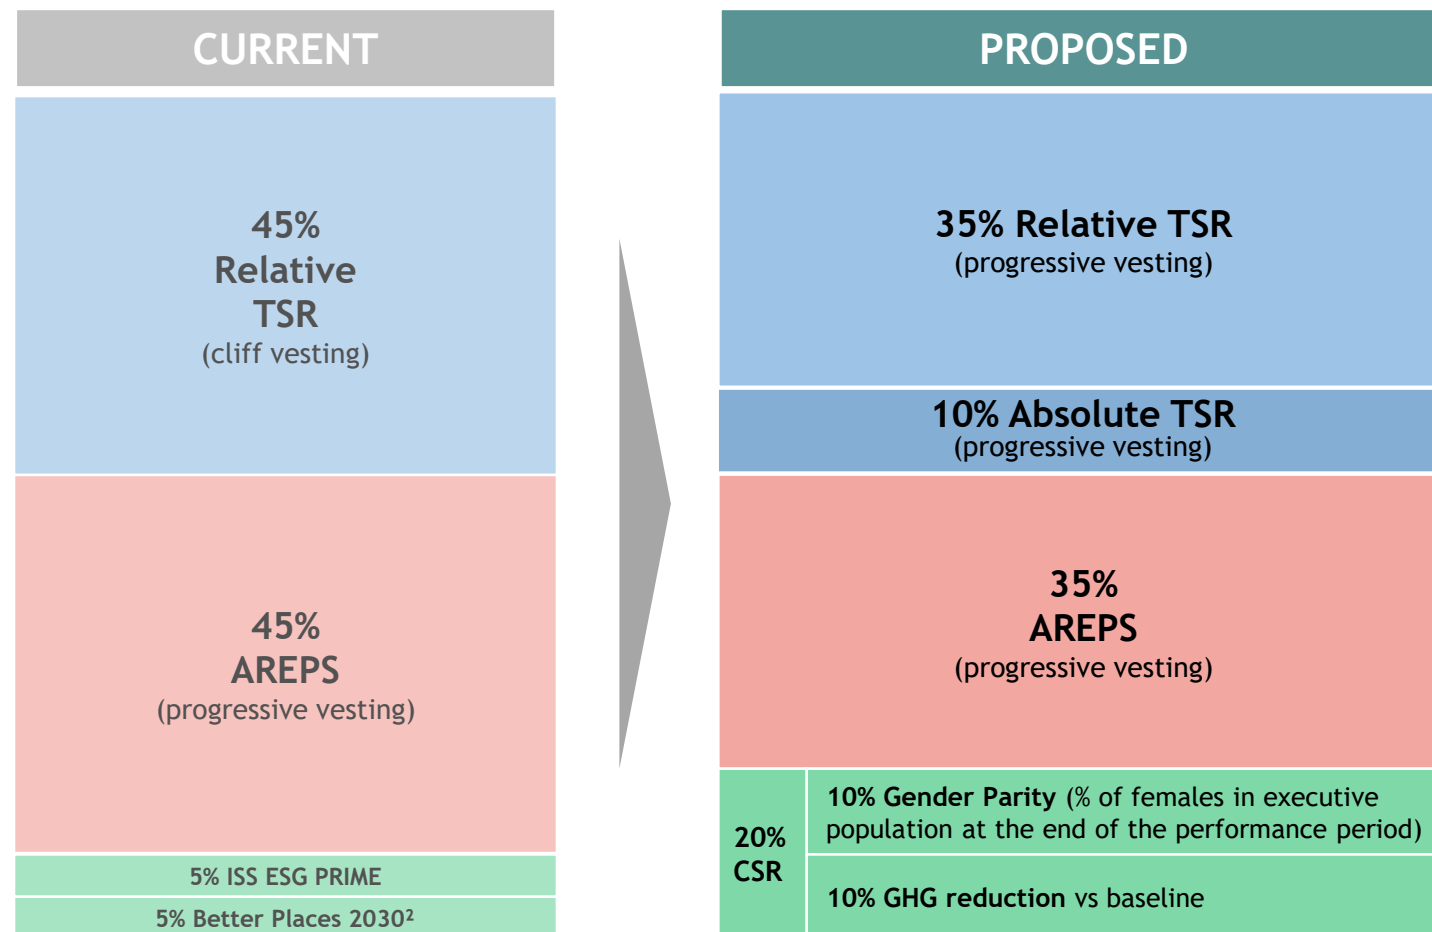

STI: the design remains relevant, no change considered. Introduction of a Target STI for more transparency

Structure	KPIs (2022)	Rationale
80% Group Objectives	50% AREPS	AREPS captures all aspects of our operational performance and cost discipline
	20% Other financial	Other financial objectives allow to select priorities that may change year after year
	10% CSR / D&I	Clear, quantitative CSR targets
20% Individual Objectives	20% Individual Objectives	Number of individual objectives limited for clarity and simplicity

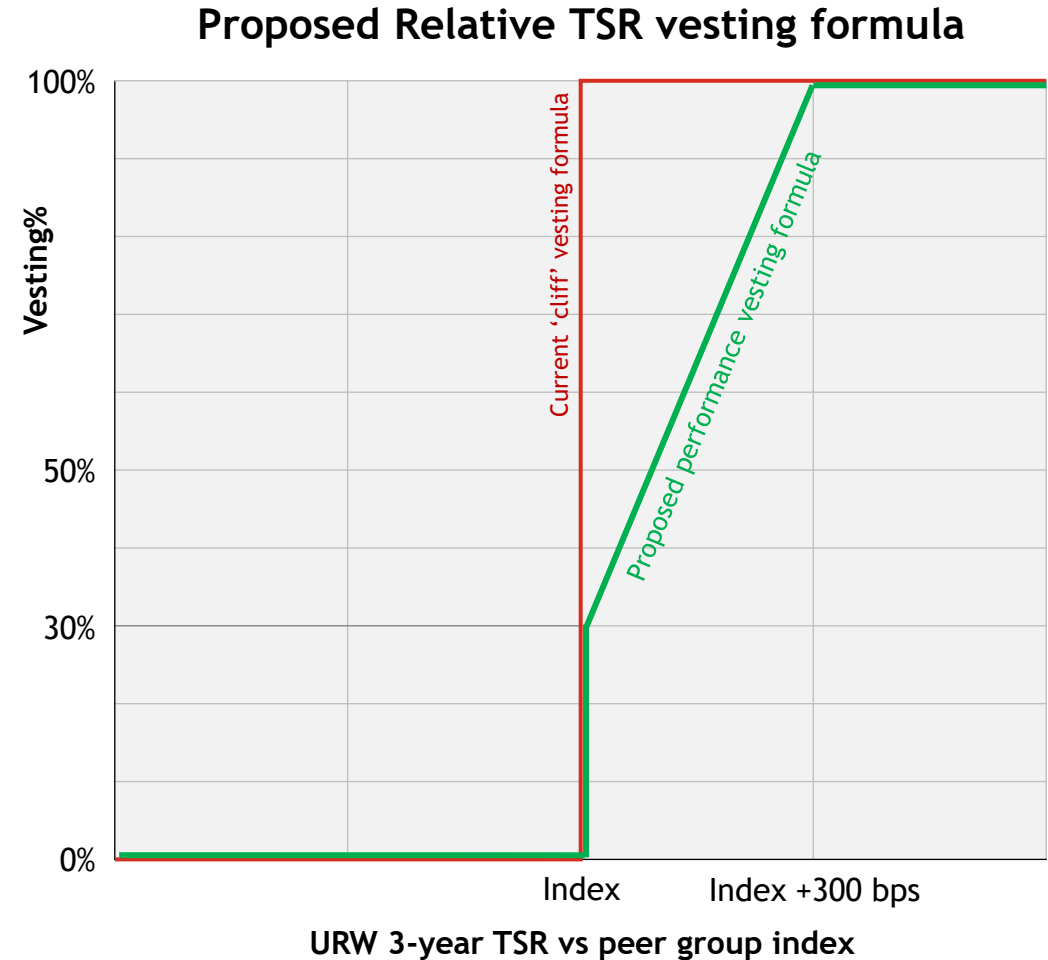

LTI: design changes to further align with stakeholders' interests

- **Increased focus on long-term**, share-based remuneration to align MB members' and shareholders' interests
- **CSR component up-weighted** (10% to 20%), in line with best practices observed in the CAC40, and GHG reduction and diversity priorities of URW Group
- **CSR objectives replaced with two key internal, quantitative metrics**, externally audited
- AREPS weighting reduced in proportion (from 45% to 35%)
- **No more 'all or nothing' TSR vesting:**
 - Move from 'cliff' to 'progressive' relative TSR vesting (with no vesting below index: no reward for under-performance)
 - Introduction of 10% of Absolute TSR with progressive vesting to further align executives' incentives with shareholder value

LTI: Introduction of progressive vesting for relative TSR

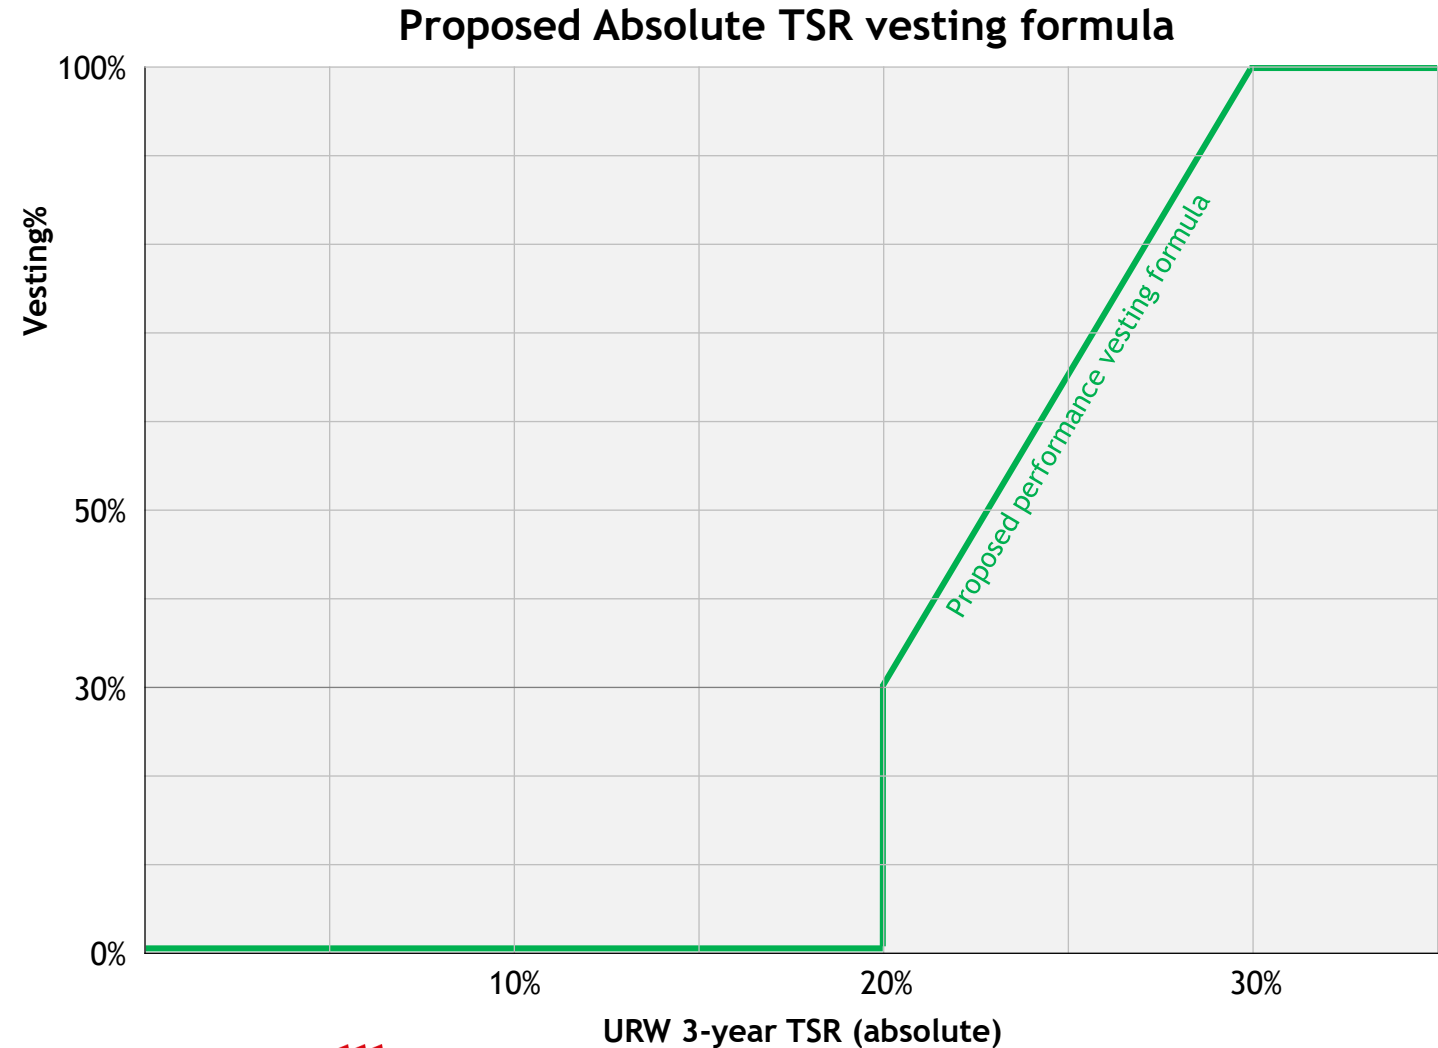

- Former approach for relative TSR was based on simple outperformance: the performance condition is fully achieved if URW TSR > Peer Group TSR (red line on the chart opposite)
- We are now proposing a progressive vesting approach, as described opposite (green line)
- The vesting formula is **more stringent**:
 - vesting for performance at index is limited (30%)
 - full vesting only occurs upon outperformance of the peer group (by 300 base points above index)
 - no vesting below index: although many CAC40 companies and real estate competitors start vesting below index, we are not using this approach which is against our ‘no pay for underperformance’ principle

LTI: Introduction of an absolute TSR component, with progressive vesting

- To further align executives with shareholders and reward for the recovery of our shareholder value, we are proposing to complement the relative TSR with 10% of absolute TSR
- Vesting formula (see also chart opposite):

3-year TSR vesting formulas	
Absolute TSR	Vesting %
<20%	0%
20%	30%
20%-30%	30%-100% progressive
≥30%	100%

Introduction of a clear compensation for loss of office policy, subject to performance conditions (1/2)

Following **unexpected changes in governance** at the end of 2020, to **facilitate exit conditions** of MB members and better **protect the Company's interests**, the SB is **introducing a termination package** as part of the remuneration policy

Principles

- Compensation in the event of forced departure
- Protection of Company interests
- No reward for failure: performance condition applicable

- MB members who do not have a suspended employment contract (i.e. at least the CEO and CFO) can receive a **compensation for loss of office in the event of forced departure**, in the following circumstances:
 - the MB member is removed from office
 - the MB member's mandate is not renewed on expiry (against their will)
 - the MB member is forced to resign as a consequence of a merger or a demerger affecting URW SE, a change in control (as defined in Article L.233-3 of the French Commercial Code), or a significant change in the Group's strategy
- Performance condition: severance payments will be subject to a **threshold average STI payout of 50% of maximum** on average over the last 3 years during which the leaving executive is a MB member
Reminder: previous CEO payout history: 86.5% for 2018, 79.2% for 2019, 26% for 2020
- The **SB can enforce a non-compete at its discretion**, to prevent the leaving MB member from working for a competitor for a maximum of 12 months (subject to the overall severance 24 months cap)

Introduction of a clear compensation for loss of office policy, subject to performance conditions (2/2)

Quantum

- Maximum 24 months of income¹, (incl. non-compete payment)
 - SB downward discretion
 - LTI reduced time pro-rata
- The amount is limited to a **maximum of 24 months** of fixed+variable¹, in line with Afep-Medef requirements
 - **The SB can apply downward discretion on the exit amount**, based on various factors: **tenure** (years of service) as an employee and as an MB member, **circumstances** around the end of mandate, **proximity to retirement age**, past individual / Group performance
 - **Outstanding LTIs would be forfeited on a time prorata basis**. They would remain subject to performance conditions and be delivered at the normal vesting date (no acceleration).
